Our Offerings

The need for our services is clear. The Youth of today are clearly struggling to cope with the pressures of their school and home lives, add to this social media and the increasing concern of criminal exploitation and it is no wonder **57% of students** have self reported mental health issues in a recent confidential Parliament survey.

The organisation is currently operating by means of private funding and donations from individuals businesses and other organisations. Once we become a registered charity (we have already started this process) we will be able to access grants / funds from local and national government that will help us grow significantly. Hence why we are seeking funding from your organisation now, to ensure we can continue to positively impact the lives of the hundreds of young people we meet every year.

Why GIVE Now ?

The **costs** involved in supporting a **young person** on a full years program at **YOUff** are **£528**. This works out to **£44 a month**, just over **£10 a week** or **only £1.44 a day**.

As a **business** you will then be **doing your part** to create a better **local community** and **wider society**, due to your **kind donation**. (& We appreciate every one!)

This **feel good factor** then has the potential to spread experientially through your organisation with the opportunity to **offer an internship, apprenticeship, work placement or work experience** to one of our **young people**. Thus from one of the lives you **help to thrive** with the **sponsorship** of a **YOUff** Young person, your business could then get a **breath of fresh air** and a **new lease of life**.

Please **get in touch today** and **you will 100% help** in some way.
